## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1, 6, 7, 9, 10, 20, 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Sanchez (US 2006/0165139).

Regarding claims 1, 9, 22,

Figure 2 illustrates a laser system having a laser module (106), a sample/hold circuit (202), a photodiode (109), an analog to digital converter (204), a digital control circuit (111), where the photodiode senses the optical power of the laser.

Regarding claims 6, 10, 20,

Paragraph [0071] implies the controlling the laser power to a predetermined specific range.

Regarding claim 7,

The digital control circuit (111) will inherently provide a digital control signal.

***Allowable Subject Matter***

Claims 2, 8, 11, 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 3-5 depend from claim 2.

Claims 12-19 depend from claim 11.
